**BE OUR PATRON!**

Stamps are part of the universal culture, the subject of the most popular collector's hobby ever since the issue of the famous Penny Black in the United Kingdom on 6 May 1840. The strength and niveau of the philatelic movement of a country is best measured through international challenges, represented by the stamp exhibitions organized since the last quarter of the 19th century.

The National Association of Hungarian Philatelists (MABÉOSZ) celebrates the centenary of its foundation in 2022. To celebrate this occasion it is organising an exhibition to bring together the philatelists of the world. The exhibition is called HUNFILEX 2022 World Stamp Championship and it will be held in Budapest between 31 March and 3 April 2022 under the patronage of FIP (Fédération Internationale de Philatélie),. The exhibition is also recognised by the FEPA (Federation of European Philatelic Associations). In addition to celebrating the centenary our aims are to acquaint as many people as possible with the past, present and future of this popular hobby and, of course, to strengthen Hungarian philately.
